

## Douglas J. Moeller MD

Douglas J. Moeller, M.D., has been a Medical Director with McKesson Health Solutions since 2003. His primary accountability involves the clinical integrity of KnowledgeBase development for McKesson claims auditing and advanced diagnostics management solutions. In addition, Dr. Moeller has major responsibilities in customer support, special projects, and new product development. He is the co-lead on the episode of care development team - responsible specifically for the EOC functional architecture.

Dr. Moeller also has active relationships with multiple professional medical associations with a focus on clinical coding and claims processing. He has shared this subject matter expertise in these areas in published articles in national trade publications and appeared in a variety of conference forums.

Dr Moeller is a Board-certified general internist and was in private medical practice for 13 years before his transition into managed care and medical informatics.
