

InterQual® View

Quick Access to All Clinical Content

As healthcare organizations shift more processes to automated systems, InterQual customers seek a new solution to bring their care management review processes into an automated workflow. But if you have limited Internet access or challenges with IT requirements, until now your only alternative for using InterQual Criteria has been books which many find excessively time consuming and unwieldy. Further, sometimes it's a challenge simply finding the books you've licensed and ensuring use of the most current version.

InterQual View is the ideal delivery method that lets you move from paper to a computer-based solution. It is a low-cost, easy-to-install way to put licensed InterQual content on a computer or server—your bridge to enhanced accuracy, efficiency and consistency in viewing and applying InterQual Criteria.

InterQual View provides many conveniences, from easy navigation between criteria subsets to quick access to references and past years' criteria. InterQual View drastically minimizes the use of paper, while still providing the flexibility to print whatever criteria or subsets you choose.

Benefits

- **Cost-effective**—affordable, high-impact technology for any organization, including those that do not have Internet access
- **Smarter, faster and easier**—ready access to the relevant criteria, references and tools for conducting reviews
- **Anywhere access**—InterQual content is always easy to find on your laptop or workstation
- **Improved review process**—reliable availability of current criteria makes the review process more effective and consistent
- **Streamlined lookups**—search capabilities for keywords, medical codes and references help you find information quickly
- **Enhanced accessibility**—all of your InterQual licensed products, for multiple years, can be accessed
- **Information exchange**—deploying InterQual Criteria within and across your organization fosters communication and transparency
- **Environmentally friendly**—you can print just the criteria sections you need, saving trees in the process

Less paper, healthier environment

McKesson is committed to empowering healthcare while reducing our environmental impact for a healthier world. InterQual View enables you to view all criteria online and minimize paper use.

Features

- **Easily installed on a PC or server**—minimal resources needed for getting users started
- **Easy navigation**—toggle back and forth between criteria subsets—up to 10 screens can be displayed at once—plus quickly look up Quality Indicator Checklists, Transition Plans, notes and EBM abstracts
- **One source for InterQual Criteria**—look up current and past years' content that you have licensed
- **Flexible viewing and printing options**—choose from three font sizes to enhance usability and readability
- **Multiple print options**—print an entire criteria subset (e.g., Infectious Disease, Surgery/Trauma), a specific review type (e.g., Preadmission, Admission, Continued Stay Review) or a specific review component (e.g., SI / IS, Discharge Screen)
- **Online help**—access product-specific and InterQual Clinical Reference Help with a click or two
