

## InterQual® Online

### Enabling InterQual Criteria Lookup from Any Computer

Thousands of hospitals and managed care organizations (MCOs) trust in InterQual evidence-based criteria every day to make decisions about medical necessity of care with confidence. They know that McKesson wrote the book on clinical decision support.

InterQual Online is an affordable, easy-to-implement, easy-to-use tool for reviewing InterQual Criteria in read-only mode. Whether an organization's requirement is to supplement the CareEnhance Review Manager solution by allowing users read-only access or to phase in automation, InterQual Online meets its needs.

The McKesson-hosted service delivers a quick and simple Web-based criteria lookup option so users can access licensed InterQual Criteria sets online. InterQual Online also promotes enthusiastic adoption of technology by users.

With this approach, McKesson assumes responsibility for all implementation. With a simple mouse click, users can view InterQual content to facilitate decision-making during the organization's pre-certification, admission, concurrent stay or retrospective review processes. Each user is assigned a unique account and password and can access the criteria anywhere via an Internet Explorer browser.

### Benefits

- **Increased confidence in clinical decision-making**—InterQual Online provides access to the rigor and integrity of InterQual, the gold standard in clinical content. InterQual supports appropriateness of care and increased confidence in clinical decision-making.
- **More freedom**—Via a secure Web connection, users access all licensed InterQual Criteria from anywhere. It is perfect for case managers on the go; there is no need to transport InterQual books.
- **Ease of use**—Criteria lookups are easy—just like looking at a page in a book. It is the most convenient solution for users, such as medical directors, who need lookup only.
- **No system administration**—Everything is handled by McKesson. Accounts and passwords are established quickly on the McKesson-hosted site, and McKesson handles system administration. Users simply log on and begin lookups.
- **Affordable alternative**—InterQual Online allows clients to pay for just the functionality they need: quick and easy online lookups to support confident decision-making.

The power to  
instill confidence

## Features

- **Tree view**—Nested decision trees within the criteria allow reviewers and case managers to quickly evaluate admissions or services for medical appropriateness without the need to read and interpret long passages of text.
- **Citations**—Users can easily view over 16,000 citations supporting InterQual Criteria.
- **Clinical Evidence Summaries**—InterQual Clinical Evidence Summaries, white papers on complex or controversial topics, are easily accessible.
- **SmartSheets™**—InterQual Care Planning SmartSheets provide concise checklist views of care planning criteria.
- **Search for criteria subsets by CPT® code**—Lookups of InterQual Procedures, Imaging, SIM *plus*, and Workers' Compensation and Disability Management criteria by ICD-9 and CPT codes make referencing InterQual Criteria online fast and practical.
- **Hosting by McKesson**—Because InterQual Online is hosted by McKesson, no system administration is necessary.
