

EnterpriseRx Long-term Care

At A Glance:

Functionality:

- Cycle Fill by LTC Facility, Patient, and/or Day
- Manage Prescriptions Individually or "En Masse" Via Workflow
- Supports Unit Dose Packaging Labels
- Flexible Billing Options
- Robust Reporting Capability

Benefits:

- Increases Efficiency
- Improves Profitability
- Advanced Manageability
- Enhances Flexibility

As the elderly population continues to grow, pharmacies need a simple yet flexible solution for serving the specialized needs of skilled nursing, assisted living, and group homes. By utilizing our optional Long-term Care (LTC) module in conjunction with EnterpriseRx, pharmacies can service both retail and long-term care facility customers simultaneously.

Our LTC solution provides pharmacies the ability to leverage existing EnterpriseRx functionality to deliver significantly improved customer service and increase LTC business without having to dramatically expand operations.

An integrated solution affords many benefits, including shared patient and prescriber records, as well as product maintenance, pricing, DUR, and Accounts Receivable information. With multiple filling and billing options, a complete set of reports and forms, and support for Unit Dose Packaging labels the LTC solution provides pharmacies a simple, easy-to-use solution for addressing this expanding and profitable segment.

About MPS

Long-term Care Screen View

With a wide array of solutions that **provide superior performance, functionality, and world-class support**, our complete portfolio can aid the entire pharmacy. Depending on individual business needs, customers can choose a pharmacy management system along with its underlying platform that will best address their key drivers. Our cutting-edge technology solves the needs of community, chain, hospital, clinic, and long-term care pharmacies in all 50 states.

McKesson Pharmacy Systems

30881 Schoolcraft Road
Livonia, MI 48150

Benefits

Advances Manageability

- Supports unit dose labeling
- Saves time via shared:
 - Patient Records
 - Prescriber Records
 - Product Maintenance
 - Pricing
 - DUR - Drug Utilization Review
 - Accounts Receivable Data
- Group physician orders by:
 - Standing facility orders
 - Patient specific orders
 - Prescription specific orders
- Configure Hours of Administration (HOA) by LTC Facility, including location level within the facility

Increases Efficiency

- Leverage existing EnterpriseRx functionality like DUR, Pricing, Pre-Edits, and Adjudication
- Manage prescription volume on an individual basis or process "en masse" through workflow
- Improve staff productivity by balancing prescription workload
- Automate billing policies to save time and maintain consistency
- Fully integrated with the EnterpriseRx Accounts Receivable module

Enhances Flexibility

- Integrated workflow design allows for dispensing activities to be managed separately from billing activities
- Numerous reports and forms available to address the needs of multiple LTC facilities
- Complete prescription orders in Cycle Fill by LTC Facility, Patient, and/ or Day
- Adjudicate when and how it is needed, based on business need and/or Third Party requirement
- Elect to 'fill and bill' clients or batch process retrospective claims for specific time periods
- Configure filling parameters for each location within the long-term care facility (by wing, ward, etc.)
- Review included core reports:
 - MAR - Medication Administration Record
 - Physician Order Forms
 - Delivery Manifest

Improves Profitability

- Drill down into billing exceptions quickly and easily to mitigate exposure
- Locate and track rejected claims to follow up for payment remittance
