

Transportation Services That Impact Your Bottom Line

Managing the physical distribution of your products can be a major logistical headache, not to mention the administrative functions associated with freight payment. More than ever before, a comprehensive freight payment and auditing service is essential. With freight costs on the rise and profit margins under pressure, McKesson Transportation Services is the answer for you.

McKesson Transportation Services can offer you a strategic partnership to deliver cost-saving freight payment and auditing services, customized to meet your unique needs. McKesson Transportation Services allows you to concentrate on what you do best while we take care of the back-office freight audit and payment processing.

Streamline and Improve Transportation Processes

McKesson Transportation Services is no stranger to the day-to-day logistical details of freight payment management. Our many years of experience working with a wide variety of companies have helped us expand and refine our freight payment and auditing services to be easily tailored to meet your needs. Our quick responsiveness and solid carrier relationships will benefit you when you need it most.

Enhance your Data Management

McKesson Transportation Services supports your efforts of reducing freight costs. Our sophisticated database and report-generation capabilities prepare data for your application so you get the results you need quickly. We'll work with you to identify the data you need to best suit your objectives of cutting costs and improving the transportation management process. McKesson Transportation Services will simplify the freight analysis process by assisting you in applying creative solutions to your transportation concerns and opportunities.

Profitability and Peace of Mind is the Result

Freight audit and payment processing allows you to save time and money. McKesson Transportation Services processes millions of transactions per year allowing us to provide you with low cost, effective services. Not only will you benefit from the cost savings, but you will not have to worry about the day-to-day freight processing headaches. You are able to concentrate on and grow your core business.
