LL-707

The LL series of label styles are for use with laser printers. These labels have peel-off tabs for printing up to four caution messages associated with the dispensed drug. The extra two tabs on the LL-709 label can be used for drug information or any additional information that may be useful for your pharmacy. The actual text message from your drug file is printed on the tabs to eliminate the use of separate caution labels.

Your label order will be shipped approximately 4 weeks after the order is placed, or you have approved the proof of your new artwork. And in case of emergency, we always stock blank labels for your convenience.
