Piggyback, pressure sensitive, self-adhesive labels provide a duplicate label. These labels are designed for filling prescriptions for Long Term Care Facilities and can be ordered in various quantities, depending on each facility's needs.

They allow for easy refill ordering by the facility with two labels in one. Information printed on the top label is automatically duplicated to a second, separate label. Rounded corner labels are featured for easy dispensing and a permanent adhesive is used to adhere the label to the vial.

All vertical slits are moveable and can be positioned as desired.

These are just a few of the many styles we offer. Select one of ours, or send us your label to duplicate.
