Pharmaserv, the fully integrated pharmacy management solution from McKesson Pharmacy Systems, provides superior performance, functionality and world-class support. It is a comprehensive system that supports your entire business process, from the prescription intake to the checkout counter, from inventory control to account management, to save you time and money at every step. Our distributed architecture houses pharmacy data and applications on servers stored on site, so you have full control over your information. This technology, coupled with our award winning support, can help you better serve your customers by providing a solid foundation to build upon for years to come.

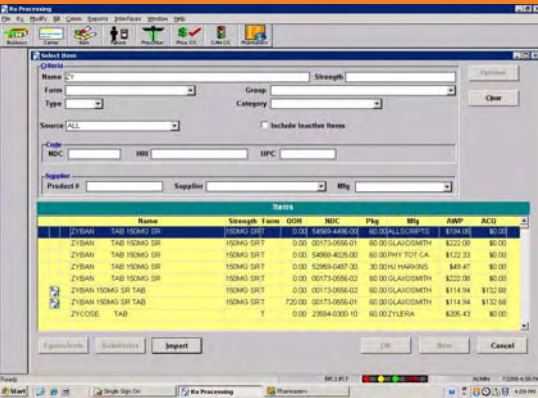

Pharmaserv is comprised of business-enhancing modules that can be incorporated to meet the individual needs of your pharmacy. Pharmaserv serves the needs of pharmacies in all market segments by positively impacting efficiencies, profitability, patient care, and more.

## About MPS

Pharmaserv Screen View

With a wide array of solutions that **provide superior performance, functionality, and world-class support**, our complete portfolio can aid the entire pharmacy. Depending on individual business needs, customers can choose a pharmacy management system along with its underlying platform that will best address their key drivers. Our cutting-edge technology solves the needs of community, chain, hospital, clinic, and long-term care pharmacies in all 50 states.

## McKesson Pharmacy Systems

30881 Schoolcraft Road  
Livonia, MI 48150

## Benefits

### Advance Manageability

Our fully integrated system includes High-speed Claims and Accounts Receivable with the ability to add on Pharmacy Navigator, Point-of-Sale, and Long-term Care, all operating on a common database to minimize data entry and protect data integrity.

- Integrated inventory management allows for automatic ordering, AWP and acquisition cost updates which reduce out-of-stock situations and overall carrying costs
- Respond easily to state and federal government regulations with built-in system compliance and functionality including NPI number handling and the new HCFA 1500 form
- Control data and IT maintenance as a result of onsite server equipment

### Emphasize Patient Care

Pharmaserv provides color-coded drug allergies, drug to drug interactions, early and late refill compliance and detailed consultation tracking, with unlimited patient notes, allergies and medical conditions so your patients will benefit from reliable and consistent care.

- Print Signa Codes on prescription labels in English plus a second language of your choice
- Print Med Guides automatically when printing prescription labels to satisfy FDA requirements

### Increase Efficiency

- Spend less time filling prescriptions with our integrated processes that work effectively together
- See your staff become productive sooner and with less training given Pharmaserv's intuitive graphical display
- Easily import new drug information to your system
- Reduce in-bound call volume with Interactive Voice Response
- Eliminate multiple data entry with seamless automation integration
- Schedule reports to generate automatically and export into various file formats for easy reference
- Save time updating data with optimized search criteria and navigation in the Patient Maintenance and History windows

### Improve Profitability

- Maximize margins and reduce costs with generic substitutions and negative profit alerts
- Increase revenues with Auto-Rx-Net's competitive pricing service
- Protect margins on third party claims with flexible and easy-to-maintain pricing schedules and profit tolerances
- Reduce expenses and wait time via high-speed claims adjudication and batch processing
