1,000/Carton

The full page labels displayed are for use with a laser printer. These labels have peel-off tabs for printing caution messages associated with the dispensed drug.

The full page labels also include the Patient Information Leaflet (PIL). Using this label and PIL format will eliminate the process of matching the PIL with the correct Rx label, thus reducing the possibility of error.

Customizing labels with your own pharmacy name and logo makes it unique to your business. Standard blank labels are also available.
