We believe that better cancer care is possible.

We invest in companies that detect disease much earlier by analyzing data.

300 million de-identified patient records

50 billion patient encounters

We make life-saving treatments more accessible.

We deliver $\frac{1}{3}$ of prescription medicine in North America, including cancer drugs.

To-date, we have enrolled $75,000^{+}$ patients in $1,600^{+}$ clinical trials.

In the United States, we support $3,700^{+}$ oncologists in all 50 states & 1 million patients.

We help give comfort to every patient.

McKesson Foundation
