There is a reason you chose the profession of independent pharmacy.

You are an active member of your community and you strive for healthy and satisfied patients. You need to ensure that your pharmacy business is profitable and operates efficiently to stay competitive, but you are always seeking opportunities to spend more time building relationships with patients in your community.

Partner with RelayHealth Pharmacy Solutions and enjoy accessibility to the nation’s most reliable pharmacy connectivity network. We invite you to explore our RelayRx™ Reimbursement Performance program to learn how we can help your pharmacy thrive with innovative in-workflow solutions.

PROTECT MARGINS AND OPTIMIZE REIMBURSEMENT

It is no secret that growing your business is a top priority of any community pharmacy owner. Our program includes an extensive library of high value claims edits designed to protect your margins and optimize your third-party reimbursements.

PROBLEM: MAC Losses

SOLUTION: You already face low reimbursements based on Maximum Allowable Cost (MAC) price lists utilized by PBMs. Our DAW Appropriateness edit identifies claims where you should either switch to a generic drug or change to an appropriate DAW code to avoid unnecessary and costly MAC losses.

Top losses on just 6 claims for a pharmacy not using our DAW edit: $1,070

PROBLEM: DIR Fees

SOLUTION: DIR fees are a major concern for independents in today’s pay for performance marketplace. Our DAW Appropriateness edit can help increase your pharmacy’s generic dispense rate (GDR), which in turn may help decrease possible DIR clawbacks and improve DIR payments.
DRIVE BETTER PATIENT OUTCOMES
As a community pharmacist, it is important to you to be viewed as an active member of your patients' healthcare team. Your patients trust you to advise them on an appropriate prescription regimen and to help ensure their medications are safe. We all know that better outcomes are important to health plans, your pharmacy and above all your patients.

FLEXIBILITY AND CHOICE
The freedom to make the best decisions for the vitality of your pharmacy and the community you serve is an important part of what you do each day. You need flexible solutions that will help you successfully confront the top challenges your pharmacy faces in today’s complex healthcare environment.

PROBLEM: Declining Reimbursements
SOLUTION: AWP Resubmission Services alert you to claims that were paid using outdated average wholesale pricing (AWP) and enable resubmission of these claims for increased reimbursement opportunities.

Average value per resubmitted claim using AWP Resubmission\(^2\) $15.45

PROBLEM: Rising Prescription Drug Costs
SOLUTION: eVoucherRx™ applies electronic coupons toward a patient’s out-of-pocket costs on qualified prescriptions, removing cost-prohibitive barriers to filling the patient’s prescription.

PROBLEM: Narrow Networks
SOLUTION: eVoucherRx helps drive medication adherence in support of better patient outcomes. Improved medication adherence increases health plan performance on quality measures that drive Star Ratings. Your pharmacy’s ability to help improve plan Star Ratings is crucial to staying in-network.

PROBLEM: Restrictive Program Requirements
SOLUTION: Other programs may be more restrictive and inflexible. With our program, your pharmacy will have access to multiple PSAOs, buying groups and vendors for the greatest flexibility and the freedom to evaluate and choose the best options for your unique pharmacy.

PROBLEM: Ensuring Patient Safety and Wellness
SOLUTION: Our program includes a number of solutions that help ensure medication safety and education. RxSafety Advisor™ provides real-time notifications to reduce risk for look-alike/sound-alike dispensing errors. NotifyRx™ delivers actionable information at the point of dispense, such as drug recalls and safety alerts. REMS (Risk Evaluation and Mitigation Strategies) Services enable compliance with FDA-mandated REMS programs, ensuring your pharmacy can dispense these select medications.

PROBLEM: Ensuring Patient Safety and Wellness
SOLUTION: AWP Resubmission Services alert you to claims that were paid using outdated average wholesale pricing (AWP) and enable resubmission of these claims for increased reimbursement opportunities.

“I envision RelayHealth as my guardian angel. They’re always looking over my shoulder. I can’t do without them.”
– Stephen Clement, Founder and Owner, Copper Bend Pharmacy
