

McKesson Life Sciences

The partner of choice for the life science industry — driving successful commercialization, launch and in-market solutions to connect patients to life-changing therapies.

Our difference:

Powering the patient experience

Driving access to your life-changing therapies and interventions at the right time, in the right place, to the right patient.

Success-driven partnerships

Extending a customized, high-touch and consultative approach to problem-solving to create the most impactful solutions for your individual needs and brand.

Consultative expertise and insights

Delivering deep functional and therapeutic expertise, operational excellence and other insight-driven solutions.

Targeted connectivity and integration

Connecting you across the healthcare ecosystem and within our expansive global McKesson network.

Connecting the dots for patients through our best-in-class solutions

Third-party logistics

Flexible logistics options that secure your therapy's path through the supply chain

Data, evidence and insights

Advanced analytics and insights harnessed from our unparalleled, real-world oncology data

Access and adherence

Patient access and engagement solutions that deliver better health outcomes

Drug safety monitoring

Tailored programs to help you solve for FDA reporting requirements and drive safe use conditions for your therapy

Program pharmacy

Customized programs and end-to-end pharmacy offerings designed to enhance speed to therapy

Specialty pharmacy

High-touch and expert clinical care specialty pharmacy services for your oncology and complex specialty therapies
