

McKesson Pharmacy Systems Pharmaserv

An intuitive pharmacy management system with integrated clinical services for maximum efficiency and reliability

- ✓ **Integrate clinical programs**
- ✓ **Maximize productivity, reduce costs, and increase profits**
- ✓ **Improve patient outcomes**

Pharmaserv gives you complete control of your data.

An intuitive, fully integrated pharmacy management system, Pharmaserv gives you complete control of your pharmacy data and scales with the growth of your business.

With Pharmaserv, you can do more with existing resources and can help expand your services to include long-term care, specialty medication dispensing and clinical programs. Not to mention manage operations across multiple stores on a single platform.

Fully integrated right in to Pharmaserv's workflow, our clinical services allow you to choose from a complete suite of pre-configured or custom-built programs to help you provide better patient care.

With the power of Pharmaserv you can:

- Identify clinical opportunities and build better relationships with your patients through increased communication.
- Document patient interactions and activities.
- Create your own clinical programs or integrate stand-alone programs geared toward your patients' needs to drive healthy outcomes, improve medication adherence and increase pharmacy efficiency.
- Deliver a cost-effective and convenient Med Sync program for your patients to improve prescription adherence.

Increase productivity and manage your operations with easy-to-use tools:

- Maintain and update medication inventory with the integrated inventory management module to regularly monitor utilization and turnover.
- Gain valuable insights on claims, patients, prescribers and products with comprehensive reporting and analysis of your pharmacy data.
- Activate pharmacy workflow, multi-location support, point of sale and perpetual inventory modules to help drive efficiency and reduce costs in your pharmacy.
- Diversify into alternative services like long-term care, compounding and specialty medications to help boost revenue and profitability.
- Reduce 40-70% of call volume by integrating Pharmaserv's Interactive Voice Response (IVR) capabilities with physician specific refill lines and enhanced reporting and playback capabilities.

Enjoy peace of mind with unparalleled reliability and security:

- Pharmaserv's distributed system allows you to keep control of your pharmacy's data to maintain security by leveraging an on-site server with available data-back up services provided by McKesson.
- Minimize data entry and protect data integrity with modular components that operate on a common database.

When you choose Pharmaserv, you choose a proven pharmacy management system trusted by more than 1,400 pharmacies. You also choose a platform backed by McKesson, the leader in pharmacy management systems and one of the largest pharmaceutical wholesalers in the U.S. to help you run a successful business now and long into the future.

Integrated Patient Engagement & Clinical Service

- 1 Clinical Programs Solution (CPS)
- 2 Adherence Performance Solution (APS)
- 3 Patient Communication Solution (PCS)
- 4 Med Sync
- 5 Mobile Delivery
- 6 Intelligent Prior Authorization (IPA)
- 7 Medication Therapy Management

“As narrow networks grow, pharmacies will benefit by providing the ability to deliver effective medication adherence support to patients. Pharmaserv's integrated medication synchronization and clinical services can help you deliver this support and prove your value to networks.”
