

## McKesson High Volume Solutions Central Fill as a Service (CFaaS)

### Increase Cash Flow and Minimize Risk

*All the advantages of a customized central fill model with no upfront investment or inventory carrying costs*

- ✓ **McKesson Owned & Managed**
- ✓ **No Upfront Costs**
- ✓ **Innovative, Customized Solution**

With more than **25 years of experience** designing and implementing customized, central fill operations and pharmacy software for customers around the country, as well as vast pharmaceutical distribution expertise, McKesson is uniquely qualified to provide Central Fill as a Service (CFaaS).

With CFaaS, you pay a per-script fee only when the script is **delivered to the patient** —keeping revenue within your pharmacy and **giving you the opportunity to invest in other areas of your business.**

**CFaaS shifts the investment risk to McKesson, and away from your business. We maintain the operations so you don't have to.**

# Central Fill as a Service (CFaaS)

Improve Care, Increase Revenue, Reduce Costs, Maximize Efficiencies

## Advance Patient Care
