

Solutions for Oncology

Clear Value PlusSM
Evidence-based cancer
care and reimbursement
information at your
fingertips

Clear Value PlusSM is a regimen support tool for physicians that highlights evidence-based treatment options and provides clinical and reimbursement information at the point of care. Clear Value Plus technology helps your practice provide high quality treatment to your patients, evaluate cost-effectiveness and efficiently document delivery of consistent, evidence-based care.

The software presents Value Pathways powered by NCCN and NCCN Clinical Practice Guidelines in Oncology (NCCN Guidelines[®]) within the clinical workflow—offering integrated financial information, real-time reporting and benchmarking, and the ability to integrate with your electronic health record (EHR).

Benefits of Clear Value Plus

Clear Value Plus saves physician time by bringing relevant information to the point of care. It can simplify reimbursement processes, reduce the burden of prior authorizations and denials, and support value-based or quality contracts with payers, saving administrator and billing staff time. The software can be tailored to highlight practice-specific information, such as preferred pathways or regimens that require prior authorization.

Helps practices deliver quality cancer care

- Access Value Pathways powered by NCCN and NCCN Guidelines® at the point of care
- Keep pace with personalized medicine and the use of diagnostic tests through automatic clinical updates to pathways and guidelines as new evidence emerges

Increase financial transparency

- Prospectively evaluate cost effectiveness of different treatment options
- Minimize exposure to denied claims by documenting adherence to evidence-based treatments

Ease the burden of documentation

- Confirm regimen selections are on-guideline and on-pathway, minimizing the burden of documentation for prior authorization, quality reporting or compliance
- Automatically record treatment decisions in the patient record of the practice’s integrated EHR

Supports the ability to negotiate quality contracts with payers

- Drive high-quality care through adherence to guidelines and pathways
- Use real-time reporting to demonstrate quality, including key performance metrics such as adherence, regimen utilization history and program participation—for an individual provider, a single site or across the entire practice
- Collaborate with payers to opt out of prior authorization by demonstrating adherence to pathways

Clear Value Plus enables reports on compliance by site, provider, insurer, disease and time.

The information contained, viewed or utilized within the Clear Value Plus software product is advisory in nature only and is not intended to replace sound clinical judgment in the delivery of healthcare services. Reasonable efforts are made to include all updates to included clinical content and guidelines, but medical practices and providers retain the responsibility to direct all medical decisions regarding the care and treatment of their patients.
