

Solutions for Oncology

My Care PlusSM

Empowering Patients to Take a More Active Role in their Care.

“My Care Plus will allow me to easily provide patient education, improve my patients’ health literacy and enhance the level of quality healthcare delivery... the portal allows us to serve thousands of patients at a time.”

- Debra Patt, M.D., M.P.H.,
*Medical Oncologist and Hematologist,
Texas Oncology*

My Care Plus is a patient portal, **used by more than 150,000 patients and 1,400 oncology providers**, that helps practices like yours share electronic health information securely with patients.

My Care Plus is designed to help your practice:

Help Patients Better Understand their Condition & Care

Provide patients with access to their comprehensive care plan, health information and condition/medication education from leading cancer resources anytime, anywhere.

Extend Care Beyond your Practice

Answer patients’ non-urgent questions with secure messaging or broadcast messages to all of your patients.

Engage Patients

Increase patient awareness of the benefits of using your patient portal with customizable marketing materials, videos and additional resources.

Make Meaningful Use Easy

Meet Meaningful Use objectives with all the features needed to help your practice meet Stage 1 and Stage 2 objectives.
